

Veterinary Certificate

Date: **September 22nd, 2017**

Consignor: **Upson Downs**

Horse's Name: **It Takes Two 2016**

Hip #: **3654**

Sale: **Keeneland September Yearling Sale**

To Whom It May Concern;

The repository radiographs of the above named horse were reviewed on September 22, 2017. Within the left front fetlock, slight lucency of the sagittal ridge of the third metacarpal bone and a healed osteochondritis dissecans lesion of the proximal sagittal ridge were noted. Within the right front fetlock, slight lucency of the sagittal ridge of the third metacarpal bone was noted. No further radiographic abnormalities were discovered. With reference to the above findings, I would consider the prognosis for achieving and maintaining racing soundness to be excellent. If you have any questions please feel free to contact me at (859)987-4303.
